A grade in this class will be obtained through the point system outlined on the *CH 233 Student Grade Sheet*: 552 points for an A, 534 for an A-. If you write a higher percentage score on the final exam than on the midterm exams, the final exam percentage will be used as a score for all three term exams (see the *CH 233 Student Grade Sheet*). There is nothing to sign-up for. It is an automatic win-win situation. This is a mechanism which gives students who experienced educational difficulty during the term for any reason a chance to demonstrate that they have mastered the material and to profit from that mastery. There are no "make-up exams," "early exams," "alternate exams," "extra-credit assignments," or "deals." If you miss Exam 1 or Exam 2 due to a choice or unavoidable event, the above mechanism will be used. If you were sick during Exam 1 but took the exam, know that you can ace the Final Exam and still earn an "A" in CH 233. If you score 96% on Exam 1 and 100% on Exam 2, know that you need master a small amount of new material to perform excellently on the cumulative final exam to maintain your "A." You must take the CH 233 final exam as scheduled. You cannot reschedule the final exam.
